Dear Jack,

I met you in Conyers, and, I had Hepatitis C! I was called today after only 12 weeks, there was no virus detected in my blood! You told me to have faith, that this virus would be healed, I wanted to give you these results! Praise the Lord! Thank you for all your prayers, you are truly a inspiration for all of us, that were called so many years ago at the farm.

*I, still am in the trial for the disease and did inform the clinical trial nurse about, the precious lord Jesus, heals through faith, and prayers, I have Him the glory and all the credit that His mercy be known to all of those who would only ask, listen, pray, and love!
Thank you, my dearest brother in God the Father, Jesus, Holy Spirit, Mary, and Joseph.*
